BYOD Notice for Year 9 Parents and Carers,

Before students can bring their devices to school and connect to our wi fi both the student and parent/carer are required to sign a BYOD User Charter. To facilitate this there will be an information session on Tuesday February 11th, 2014. It will take place in the Performing Arts Hall located at the front of the school. There will be two sessions one commencing at 3:30pm and another at 5:30pm. The BYOD User Charter will be distributed and explained at this meeting. It would be appreciated if you could let the school know via email, your son/daughter or a phone call which session you will be able to attend.

If there are families that have a device but were unable to make the testing day at the end of last year you are still welcome to come to the school to test it. This can be done by contact our Technical Support Officer, Jayson Pencil on 42571744 or via email – jason.pencil@det.nsw.edu.au. Alternatively, your child can bring the device to school and see Mrs Cole at the start of the day. We will keep the device at the front office and your son/daughter will be called to the library to test the device with Mr Pencil.

Please continue to ask any questions that you may by either calling the school, coming in to see us or emailing Mr Pencil or myself – frances.cole@det.nsw.edu.au.

Regards,

Frances Cole
